5	Let's not go overboard on this issue. We all live in different areas of the world. All aspects suggested in this survey vary. There is much information even in all forms of our local media about the needs of the world. We need to keep informed of the pros and cons of each issue, which is not always the case in the ways things are presented to us in the Congregation. Sometimes the message is "We must always think and do it this way "or else." Even some of the ideas in this survey have been adopted by our sisters for years...they are not something new. Recognize the efforts and say "thank you," instead of presenting things as if they are new choices. The CSJs are not the only ones who "can save the world" in regard to this issue or any others that are crucial in this era of time.	9/27/2014 6:59 AM

8	I would like to RE- I would like to RE-SUGGEST that every Sister, Associate, Ohana, Con-associate, etc. would purchase ONE (1) flower- blooming tree for \$5 to \$10. Plant the tree anywhere -- patio, yard, side of the freeway, park, etc. Use your watering can and watch it grow -- adding beauty and oxygen to the environment! Try it. It really can make a difference. Twenty years ago, my Mother planted 2 Oleander bushes at the end of her culdadas and the 405 FWY. They are still growing!	9/26/2014 3:47 PM

Survey of Readiness to implement the Call to Action on Communion Within Earth Community

105	Thank you for all your hard work!	9/10/2014 5:46 PM
106	Act quickly. Do not wait for permission.	9/10/2014 5:32 PM
107	We need more than information in these areas. . . Could we have retreats in different areas?	9/10/2014 4:35 PM
108	#5. I think should have catergorized upper class life style. In addition nothing about multiple homes etc.	9/10/2014 3:04 PM
109	We ought to network and engage actively in climate change groups as units and congregation ally. This is a survival issue that is immediate.	9/10/2014 2:10 PM
110	none	9/10/2014 2:01 PM
111	Work to engage people who are new to the concepts and processes related to sustainability.	9/10/2014 1:02 PM
112	A spiritual component seems to be missing from the above survey. I believe eco-spirituality is a way of life. We in St. Paul are fortunate to have programs such as Hedgerow's "Ask the Beasts" to help us "dialogue with Darwin" and reeducate ourselves.	9/10/2014 12:48 PM
113	Continue to inform us on the above listing, e.g., alternatives , how to conserve, what alternatives to the items I've checked above.	9/10/2014 12:19 PM
114	Can we move beyond information and individual actions to communal policies and public advocacy?	9/10/2014 12:00 PM
115	Be sure the final outcomes speak to and challenge the average sister/associate. Offer a reflective event or self study on the interconnection of Earth issues, new cosmology and the Christian tradition and faith.	9/10/2014 11:52 AM
116	I am hoping for a congregational land ethic, environmental :Maxims" that connect with our Charism and Earth jurisprudence prayer and ritual. I have high hopes for your committee and how you can move our congregation to new norms (other than the middle class consumer). Please don't hesitate to call on many, many community members to be involved...you don't have to do anything "for us" but rather "with us." Thank you and know I keep you all in prayer.	9/10/2014 10:39 AM
117	No requests but thanks for this survey that raises our consciousness.	9/9/2014 6:11 PM
118	Thanks, so much, for all your work on this important topic.	9/9/2014 4:11 PM
119	nothing at this time	9/9/2014 2:57 PM
120	Education on the above topics will definitely help me. Summary and links more than long thesis! Thanks.	9/9/2014 12:08 PM
121	Develop and provide rituals related to our communion within the earth community	9/9/2014 12:06 PM
122	The survey seems to be very complete! Thank you	9/9/2014 11:15 AM
123	Review impacts of fracking; the Keystone pipeline;wildlife poaching;destruction of rain forests,wetlands;lack of food and water. Support and publicize people and programs that are making a positive difference for the Earth Community.	9/8/2014 10:53 PM
124	Our parish is offering the JustFaith, 8 week module: The Ecological Crisis; Developing a Spirituality of Hope. 26 people have signed up and are grateful to look at this crisis through the lens of our faith.	9/8/2014 7:49 PM
125	Plant a tree -- green or flowering, thus beautifying the invironment and/helping to add oxygen to the air.	9/8/2014 6:05 PM
126	Sharing the info of how some are doing things to curb their carbon footprint, preserve water, support alternative energy, avoid processed food, use non-toxic personal products(I don't think I know about these...ahhh...those pearly soaps that land in fish. Others???) Thanks for leading us to the way to improve our presence on the planet.	9/8/2014 5:39 PM
127	If there was something we as a congregation could do that would make a significant difference I would like to have that be a focus for us. Each of us is probably doing something. What could we do collectively. Making a personal commitment like we did at Assembly is not what I mean.	9/8/2014 5:33 PM
128	Thank you for all your thorough work so observable in this survey. I am trying to further this information at my ministerial site.	9/8/2014 3:59 PM
129	Thanks.	9/8/2014 3:33 PM
130	Taking public stands eg.issues related to water	9/8/2014 3:32 PM

Survey of Readiness to implement the Call to Action on Communion Within Earth Community

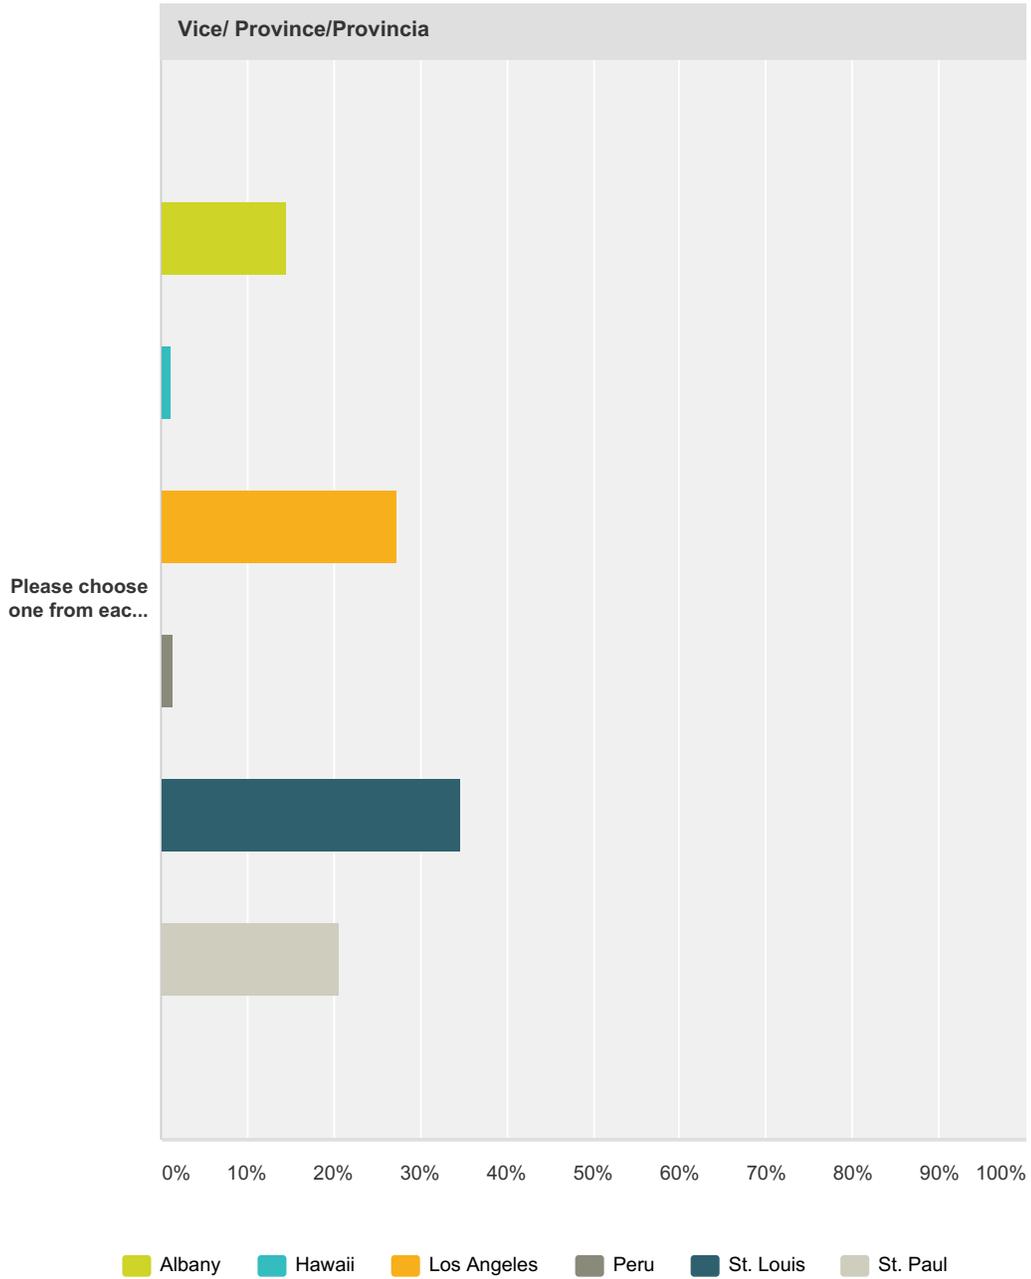

131	I feel like I do most of the above - what I need is more support in that we do some things together. ex I can turn the ac off, cut back on water but if rest of my community doesn't see the importance it is very depressing and de-energizing. We need to do some things together and make decisions tht effect our life style together.	9/8/2014 3:32 PM
132	This is very well done - affirming me in doing what I can and also challenging me to consider finding a few "more" ways to respond. Do this again in 4 to 6 months!	9/8/2014 2:22 PM
133	A thought-filled survey...Thank You!	9/8/2014 1:10 PM
134	Thank you.	9/8/2014 1:08 PM
135	Thanks for helping us grow in our appreciation for and understanding of the earth of which we are a part.	9/8/2014 1:07 PM
136	As Justice Coordinator for the LA Province I commit myself to assist in any way I can in implementing Communion With the Earth Community, It has been a passion of mine for the past 40 years. I hope we can work together rather than in a parallel manner. Sr. Diane	9/8/2014 1:05 PM
137	none at this time	9/8/2014 1:04 PM
138	Would like to know more about industrial, nuclear, toxic use & waste, enviromental issues	9/8/2014 12:57 PM
139	5. In order to understand the interdependence of humanity and nature, I would be helped by information on the interrelatedness of middle class lifestyle, the crisis of Earth's life support systems, and how poor people are affected. This question, for me, just affirms our (U.S.) place in the middle class. There is abundant information "out there." I'm not sure that having more info will help. Do we (U.S. responders) realize that we are "affluent" in relation to medical care, housing, food, transportation, long-term care when "old," etc., etc. Finally, rather than making the info available, show where it can be accessed. Thank you and very good luck on making this Communion real in a way that makes a difference. 3. I recognize that many of the life supporting systems of Mother Earth, like water, air, and soil, are in crisis. True, but I also believe in Mother Earth's resilience and ability to heal.	9/8/2014 12:50 PM
140	thank you	9/8/2014 12:15 PM
141	Thank you. Gracias.	9/8/2014 12:00 PM
142	Look into communities around the world that use and recycle water,wind, Sun and other natural resources	9/8/2014 11:56 AM
143	In evaluating this survey, you may wish to consider that some respondents are disabled and/or in assisted living facilities.	9/8/2014 11:55 AM
144	share some of the new or creative ideas from our other units	9/8/2014 10:39 AM
