Welcome to the first edition of *Snapshots in Time*. Every three months, we will feature photos and artifacts from the CSJ archives that are also shared on Facebook. Here are some highlights from 2019. Enjoy!

**ST. JOSEPH’S ACADEMY, WASHINGTON, GA**

This vintage beauty features Sisters of the former Georgia Province with students from St. Joseph’s Academy in Washington, GA, around 1900. Notice the large telescopes in the background! Photo from the St. Louis Province collection.

**COLLEGE OF ST. ROSE ARCHIVES**

October was American Archives Month! In this photo from 1983, Sister Charles Marie Neat of the Albany Province graciously displays some archival materials at the College of St. Rose. Photo from the Albany Province collection.
Renew the Face of the Earth!
September 20 marked the day that archivists around the world call for climate action. We remember the Albany Province Sisters' participation in the 1982 March in Washington to protest nuclear arms and raise awareness of the Earth and quality of life. Photo from the Albany Province collection.

The Hawaii collection includes a menu from the ship that transported the CSJs from the West Coast to Hawaii in 1951. Lunch entrees included lamb, pork loin, Swedish meatballs, and garrupa (Californian rockfish)!

Here's a throwback from the 1980s that tickles our funny bone! Pictured is S. Mary Louise Dolan, natural sciences professor at the College of St. Rose in Albany, NY. Photo from the Albany Province collection.
Here are before & after photos highlighting the arrival of power lines outside of the Academy of Our Lady of Peace in San Diego. The CSJs operated the school out of this former carriage house from 1887 to 1925 before it moved to its current location. The academy remains a sponsored institution of the Los Angeles Province. The house was razed in 1925 to build the Medico-Dental Building. Photos from the St. Louis Province collection, Los Angeles series.

This throwback features S. Kathleen Stack's 1960s appearance on Japanese television as she conducted the St. Joseph Joshi Gakuen school choir in Tsu, Japan. Photo from the Congregational Center collection.

Sisters Betty Conrad (center) and Maria Rubina (right) visited ancient tombs called chullpas with staff member Julia (left) in Moho, Puno, Peru in 1973. Photo from the Congregational Center collection.
