1. Applicants must identify the Purpose of the Organization and the Purpose of the Request in sufficient detail.
2. Applications for grants of \$2,000 or less are received throughout the year and may be awarded according to available funds.
3. Applications must provide complete information in order to be considered.
4. Accountability Reports are required within six months of receipt of the award, explaining use of funds and its impact.
5. Organizations may receive one mini grant per year.
6. Applying for a grant gives permission to the grant committee to publish info on the grant.
